

DIE DEUTSCHEN UND IHR GEHIRN!

This question comes under the cryptography section and the given is a cipher:

fmcj{xmkuivotewcwqefxm}

On analysing it we find it to be a Trihemius cipher. Let's decode it:

The highlighted text is the flag except it's not in the flag format. After converting it to the correct format (also mentioned lowercase) we get the flag to be:

flag{thenameisjohannes}
